**Certificate of Internship**

Ms Divya Nagar successfully completed an internship from 11th of May to 31st of July 2015 at the University of Applied Sciences and Arts Northwestern Switzerland, School of Business.

During this time Ms Nagar

- worked as a programmer and research assistant in the research project CloudSocket (Business and IT-Cloud Alignment using a Smart Socket),
- developed an online master thesis library based on PHP/MYSQL for the website of MSc in Business Information Systems,
- designed and implemented a graphical representation for the OMG Business Motivation Modelling language in the ADOxx meta modelling platform,
- implemented a metamodel for the enterprise architecture language Archimate in the ADOxx meta modelling platform.

Ms Nagar is a very intelligent, self-motivated person. She performed her tasks very autonomously and to our complete satisfaction. She was very helpful to students and researchers who worked together with her in the project. Her pleasing personality made it easy to integrate herself in the project team.

With kind regards,

Prof. Dr. Knut Hinkelmann
Dean of studies MSc in Business Information Systems
